The best-selling college rhetoric for over 20 years, "The St. Martin's Guide" has an unparalleled record of proven success. From the beginning, Axelrod and Cooper have taken the best of classic and contemporary theory, filtered it through their own and their colleagues' classroom experience, and then blended the result into a flexible classroom tool. Their step-by-step guides to writing specific kinds of essays were a groundbreaking concept and changed the way writing is taught in American colleges. The course continues to change, and Axelrod and Cooper continue to innovate: source-based writing, analysis of argument, online teaching, and visual rhetoric are some of the focuses of this latest revision. By seamlessly incorporating practical, class-tested solutions to these new challenges, Axelrod and Cooper have once again provided the best foundation for college writing. **WRITING ANALYTICALLY** treats writing as a tool of thought, offering prompts that lead students through the process of analysis and help them to generate original, well-developed ideas. The authors of this brief, popular rhetoric believe that learning to write well requires learning to use writing as a tool to think well. Rosenwasser and Stephen emphasize analysis as a mode of enriching understanding that precedes and in some cases supplants argument. Materials in the eighth edition are better integrated, more contextualized and--when possible--condensed. A new chapter, Thinking Like a Writer, contains a broad array of strategies for integrating opportunities for writing into a course. It makes explicit a subtext that pervades the book: that to think of yourself as a writer is to see more, to think differently and to engage the meaning of things more earnestly. **Important Notice:** Media content referenced within the product description or the product text may not be available in the ebook version.
