This book looks at India of the 1950s and 1960s while it was still emerging from two centuries of colonial rule and striving to come together as a nation. It critically explores the history of nationalism and identity in Northeastern India, a region with diverse ethnolinguistic communities and people, through the personal history of the first Manipuri (Meitei) direct recruit in the Indian Administrative Services. The book weaves in autobiographical stories with the story of Northeast India, capturing its politics, socio-cultural distinctiveness and milieu that set the region apart from the rest of the country. It covers the career of the author in the IAS, serving in Manipur and Karnataka, with the Union Government, and finally as Secretary for the northeastern region. Through these, the book tells the story of a changing society, of a developing nation and a people on the move. It shows how borders and barriers were collapsing and being formed at the same time and how the country was dealing with it. The book is a unique and significant addition to the literature on Manipur; it deepens our understanding of the northeastern states and the complex interactions of the people of the region with the rest of India. Part of the Transitions in Northeastern India series, this book will be of great interest to researchers and scholars of modern history, sociology, social anthropology and postcolonial studies, particularly those concerned with India and Northeast India. The series builds an extensive collection of high quality descriptions of languages around the world. Each volume offers a comprehensive grammatical description of a single language together with fully analyzed sample texts and, if appropriate, a word list and other relevant information which is available on the language in question. There are no restrictions as to language family or area, and although special attention is paid to hitherto undescribed languages, new and valuable treatments of better known languages are also included. No theoretical model is imposed on the authors; the only criterion is a high standard of scientific quality. Contributed articles chiefly with reference to rural development in Northeastern India; includes articles on cultural history of the region. Women, queer and trans-spectrum throughout the world are still economically, politically and socially marginalized. This book seeks to understand gender in the 21st century. It explains in depth the background of gender according to different traditional perspective roles, challenges faced by gender and an understanding of Gender in the current generation of 21st Century. This book makes essential reading for all those interested in the intersections of class, education, social work in the 21st century. Students and researchers of sociology, women studies and education will find this book invaluable. Himalaya, one of the global biodiversity hotspots, is the abode of a variety of flora and fauna. The Himalayan ecosystems have immense ecological, socioeconomic, and aesthetic significance as they provide a wide range of ecosystem services. The northwest Himalaya (NWH), covering three states of India viz., Uttarakhand, Himachal Pradesh, and Jammu and Kashmir, starts from the foothills of Shivaliks in the south and extends to the greater Himalaya in the north. This region is also the source of some of the major rivers of India. With the increase in population, the NWH ecosystems have been under threat due to deforestation, loss of biodiversity, expansion of agriculture and settlement, overexploitation of natural resources, habitat loss and fragmentation, poaching, mining, construction of roads and large dams, and unplanned tourism. The Himalaya being young and geotectonically active, remains inherently unstable, fragile, and prone to natural disasters. Climate change is also likely to impact the Himalayan cryosphere drastically. Recognizing the importance of the Himalaya, a National Mission for Sustaining the Himalayan Ecosystem, one of the eight missions under the National Action Plan on Climate Change (NAPCC) of Govt. of India, to conserve biodiversity, forest cover and other ecological values in the Himalayan region has been taken up. Spaceborne remote sensing with its ability to provide synoptic and repetitive coverage has emerged as a powerful tool for assessment and monitoring of the Himalayan resources and phenomena. Indian Institute of Remote Sensing, Dehradun has taken up a number of studies in the fields of geology, water resources, forestry, agriculture, urban settlement, etc., over the last decade. The book summarises the work carried out in different disciplines, illustrated with tables and figures and a host of relevant references. It is hoped that the book serves as an excellent reference of immense value to the students, researchers, professors, scientists, professionals, and decision makers working in the NWH region. This Volume consists last 3 Units 1. Information & Communication Technology (ICT) 2. People, Development and Environment 3. Higher Education System Contributed articles presented in a seminar, held during 14-15 Sept. 2007, at St. Joseph's College, Jhakama. The ICDL Conferences are recognized as one of the most important platforms in the world where noted experts share their experiences. Many DL experts have contributed thought-provoking papers in ICDL 2016. These important papers are reviewed and conceptualized into ICDL on different areas of DL proceedings. The Proceedings have two volumes and over 700 pages. Specifically written for the AQA GCSE English language specification for first teaching from 2015, this student book is designed for students to progress to grade 5, with extension activities to facilitate achievement beyond this. With progress at its heart, this differentiated resource covers a range of 19th-, 20th-, and 21st-century texts and has spelling, punctuation, and grammar support integrated throughout. The book is a comprehensive study of border-related issues arising from the 1947 Partition of India. It looks at various cases of border disputes and affrays such as disputes related to the incorporation of princely states like Kashmir and Jaunpur, the agitation for the creation of new political entities, post-partition reconstruction of Punjab and old pre-partition Punjabi leaders losing their relevance, the Kamtapuri movement, Khasi and Mizo and Chin dissatisfactions, as well as the secession of East Pakistan in 1971. An important contribution to the study of borders, the volume will be useful for students and researchers of modern Indian history, colonial India, Partition studies, borderland studies, refugee studies, minority studies, political science, film studies, postcolonial studies, and South Asian studies. Contributed articles; with reference to India. This book highlights the relationship between disasters and development through a socio-cultural study of human geography and governance institutions. It studies the cause, context and consequences of disasters in one of the most fragile Himalayan regions in India. The book establishes the fact that disaster management is built within the framework of good governance, without which it has no meaning. For lack of effective and responsive governance, development has lagged behind and even though the frequency of disasters has been increasing, little is being done to redesign developmental frameworks to prevent ensuing losses. Besides, the near absence of governmental support during recurrent disasters, communities have cumulatively become reservoirs of innovations to cope up with disasters. The resilience plans need not follow implanted models but may be cost effective only if they apply a bottom up

approach. Just as the region is culturally diverse so are the challenges encountered by local communities in terms of generating resilience to every disaster. Despite more than a decade of the Disaster Management Act (DMA) of 2005, most of the states in this northeastern fringe of India continue to wait for its implementation beyond mere structures and offices. The book suggests that urgent action is required in accordance with the DMA 2005 towards inter-agency coordination, proactive participation of local governance, mobilization of Community based Organizations (CBOs) and curriculum based training in every academic and technical institution. Governments of these northeastern states of India should establish accountability of State Disaster Management Authorities and inspire them to participate proactively with communities for an effective resilience building in the region. With the increasing use of information communication technology in education, new skills and competencies among library science professionals are required for them to effectively disseminate necessary information to users. It is essential to equip educators and students with the requisite digital and information literacy competencies. Literacy Skill Development for Library Science Professionals provides emerging research exploring the roles and applications of information literacy and technology within library science and education. Featuring coverage on a broad range of topics such as electronic resources, mobile learning, and social media, this book is ideally designed for librarians, information and communication technology researchers, academicians, and graduate-level students seeking current research on the ability to find, evaluate, use, and share information in library science. This Is A Book On The Economy Of Manipur, A North Eastern State In India, Which Has Entered Recently The Intellectual Agenda Of The Nation. The Urge For Doing Something Is Circumscribed By Lack Of Well Researched Material Particularly On The State Economy 1. FACE 2 FACE MAT is a complete collection of 24 years' Solved Papers 2. The book is divided into 5 section 3. Solved Papers are provided for the practice of the question 4. We detailed answers are given for every question for better understanding Here comes "FACE 2 FACE MAT 24 years' Solved Paper (2020 - 1997)" prepared under the close guidance of experts by keeping in mind to meet all the needs of students preparing for this exam and to gain entry into top business schools. Following the methodical approach this book gives comprehensive treatment to all the 5 sections as prescribed by the board. Ample numbers of solved questions (2020-1997) are mentioned in this book giving clear guidance on how to attempt the various types of questions with tips and tricks. Solved Papers are given to get acquainted with the paper pattern and question types. Adopting the unique style of teaching this book helps students to not only learn about the concepts but also managing time in during exam. Based on the latest syllabus and providing such a huge amount of solved papers, this book is a perfect study manual assuring success at your upcoming examination. TABLE OF CONTENT MAT SOLVED PAPER (Sept 2020), MAT SOLVE PAPER (May 2019), MAT SOLVED PAPER (May 2018), SECTION I: (Language & Comprehension), SECTION II: Intelligence & Critical Thinking, SECTION III: Mathematical Skills, SECTION IV: Data Analysis & Sufficiency, SECTION V: Indian & Global Environment. Part of the 'Transition in Northeastern India' series, this volume critically explores how Northeast India, especially Manipuri society, responded to colonial rule. It studies the interplay between colonialism and resistance to provide an alternative understanding of colonialism on the one hand, and society and state formation on the other. Challenging dominant histories of the area, the essays provide significant insights into understanding colonialism and its multiple effects on economy, polity, culture, and faith system. It examines hitherto untouched areas in the study of Northeast, and discusses how social movements are augmented, constituted or sustained. This book will be of great interest to researchers and scholars of modern history, sociology and social anthropology, particularly those concerned with Northeast India. Sustainable Economic Development And Environment: India And Other Low Income Economies (Lies) Is An Edited Volume Of Selected Research Papers Mostly Presented In The Iids 1St (Calcutta) And 2Nd (Perth) International Conferences On Development And Future Studies. In the absence of a book that could map the history of Indian folklore studies single-handedly, this book can be deemed as the first-of-its-kind to feature the historical development of folklore studies in the different states of India. This book succinctly introduces the readers to the folk culture, folk arts, and folk genres of a particular region and to the different aspects of folkloristic researches carried out in that region. Articles chiefly on the dance styles accompanying Maharas, a form of Rāsālīlā, Vaishnava drama, from Manipur, India, and the contribution of Sija Laiobi, b. 1771, Vaishnava woman saint and princess from the royal state. 1. FACE 2 FACE MAT is a complete collection of 25 years' Solved Papers 2. The book is divided into 5 section 3. Solved Papers are provided for the practice of the question 4.
