Explains how to use the portable music player with a Windows PC or a Macintosh computer to perform functions including play music, store personal contact and calendar information, and use as a portable FireWire drive. User interfaces and supporting documentation are both supposed to help people when using a complex device. But often, these forms of support seem to come from different worlds. User interface designers, document designers, and researchers in both interface and document design share many goals, but are also separated by many barriers. In this book, user interface designers and documents designers from Microsoft Corporation and from Apple Computer, plus researchers from several universities try to bridge the gap between interface design and document design. They discuss opportunities for closer cooperation, and for more integrated and effective help for users of modern technology. This book is a compilation of papers, manuals & comments to help students of (CRV) or Controlled Remote Viewing, learn this amazing intuitive art. We present FOIA documents from the CIA Star Gate archives, from the public domain and from prominent practitioners of remote viewing for the first time together in one book. First, we include a paper from the father of Remote Viewing and the creator of CRV - Ingo Swann. The document is titled 'Coordinate Remote Viewing (CRV) technology 1981-1983, Three year project'. After this we present two differing CRV manuals. The first by Ingo Swann's top CRV student and the only person trained in all CRV stages by Ingo Swann (Tom McNear). This is titled: 'Coordinate Remote Viewing Stages I-VI and Beyond' - 1985. The second, a later manual was created primarily by Paul H. Smith with help from the 'then' team of military Controlled Remote Viewers, titled: 'The DIA CRV Manual' - 1986.
