Robert Stiles married Elizabeth Frye, daughter of John Frye and Anna, 4 October 1660 in Rowley, Massachusetts. They had ten children. He died 30 July 1690. Descendants and relatives lived mainly in Massachusetts, Connecticut, New York and New Hampshire. Bestselling author Anthony DeStefano brings the vain and possession-loving Roxy the camel to life to demonstrate the familiar Bible verse: It is easier for a camel to go through the eye of a needle than for a rich man to enter the kingdom of God. Little ones ages three and older will learn that possessions are only things...and definitely NOT the most important things. Brightly illustrated by Richard Cowdrey and written in engaging, funny rhyme, this storybook follows Roxy's journey from her waterless home in the desert to a great city of beauty she's heard about but never seen. Along the way she learns that the only way to attain true happiness is to share—or even give away—what she possesses. Discover the sexy, wild series - perfect for fans of Crossfire, Fifty Shades, and Penelope Sky! Most women don't know the pleasure of total surrender. You've fantasized about it. Maybe you've even tried. Asked for his hands to grip you a little tighter. If he could tie you up. Hold you down. But he always stops too soon. Book 1 – The Billionaire's Desire (A Dark Billionaire Romance Short Story) He was tall with long, black hair. He wore a suit, and he wore it well – it was tight-fitting and hugged his lithe body. He was talking heatedly with another man in a suit near a door marked “employees only.” As Molly watched he laughed and patted the other man on the shoulder, and then turned and made to walk away – but then he caught her eye. She suppressed a squeal – she didn’t know why, but she would have squealed if she hadn’t made the conscious effort to stop it – and looked away. She was near the eggs now, so she focused on them. She felt more than heard his presence behind her, and her whole body froze. She felt like a shadow had just descended on the entire aisle. Who was this man and why was he standing behind her? She suppressed the urge to turn around. She didn’t know why but the idea of turning around was terrifying to her. Well, she did know why – he was incredibly attractive and he was close to her. She wasn’t very good with attractive men. She wasn’t very good with men in general. Finally she heard him – heavy breathing, in and out, slow, rugged breaths. Book 2 – The Billionaire's Deal (A Dominant Billionaire Romance Short Story) I love it when the trees are so tall they have grown together above the lane so that I am driving in a tunnel of trees, the light just sparkling through the leaves like shiny copper pennies falling from heaven. Of course, I know Copper Ridge Ranch was named for the natural element once found in its soil, and if anything rains down on Marcus Elliott - it's not copper. It's thousand dollar bills. Do they even make those? If they do, I'm sure Mr. Elliott uses them like tissue paper. I take the corner a little too fast and hear the rattle of the food trays in the back. Great, that's all I need! On the day Marcus welcomes August Kalle into his home, I'm going to show up with a cheesecake

covered in road rash! I'm lucky though. Not too much to unload on this trip. I started Carrie's Catering because I liked to cook and I needed a job. Little did I know I'd spend most of my time being a roadie - spending more time loading and unloading the van than mixing, baking or frosting all together. But, Copper Ridge Ranch is my flagstone client. They spend so much money and time on catering Mr. Elliott once asked me to consider moving into a guest house and just living here.

Book 3 – The Billionaire's Trust (A Female Billionaire Romance Short Story) An urgent flashing of the house lights beckoned the audience back to their seats for the Second Act. Vicki had spent the intermission backstage, chatting with two of her favorite singers who would soon grace the stage once more as the booming baritone Magnifico and his daughter Angelina, a dazzling soprano whose career had reached new heights during these ten, high-profile New York performances. Vicki couldn't conceal her delight at the absolutely full house. "I guess the new marketing firm really hit one out of the park," she commented quietly to Martin as the lights dimmed. "All ten performances are sold out!" Her lawyer friend smiled. "It's the inspired leadership they've been getting," he replied. "New blood, new ideas. It's just magnificent." The maestro appeared at the edge of the orchestra pit and received enthusiastic applause. "Although even I would admit that Rossini's genius might have something to do with it," Martin said, raising his voice over the audience's appreciation. "Still, you've broken the glass ceiling yet again, I would say. Bravo, Miss Vydra." "You're too kind," she said, patting his hand as the strings stirred in a quiet but ominous tremolo, quickly ushering in a sudden and violent orchestral tutti, brassy and loud, which filled the huge auditorium with the dark ferocity of the storm it depicted. Vicki let the eruption pass through her, finding herself carried by its torrential force, allowing the moment to fill her with an awed respect for nature's power. She knew that it could not last, and the audience was soon deposited kindly into the peaceful meadow of the storm's passing. Horn calls signaled the all-clear and, as one can always expect from Rossini, the good humor and delicate, social fun-poking resumed.

THE ICONIC BESTSELLING NOVEL, WINNER OF THE WOMEN'S PRIZE, AND NOW AMAZON TV SERIES STARRING TONI COLLETTE AND AULI'AI CRAVALHO 'She throws her head back and pushes her chest forward and lets go a huge blast right into the centre of his body. The rivulets and streams of red scarring run across his chest and up around his throat. She'd put her hand on his heart and stopped him dead.' Suddenly - tomorrow or the day after - girls find that with a flick of their fingers, they can inflict agonizing pain and even death. With this single twist, the four lives at the heart of Naomi Alderman's

extraordinary, visceral novel are utterly transformed, and we look at the world in an entirely new light. What if the power to hurt were in women's hands? 'Electrifying' Margaret Atwood 'A big, brash, page-turning, thought-provoking thriller' Guardian Weather, Macroweather, and the Climate is an insider's attempt to explain as simply as possible how to understand the atmospheric variability that occurs over an astonishing range of scales: from millimeters to the size of the planet, from milliseconds to billions of years. The variability is so large that standard ways of dealing with it are utterly inadequate: in 2015, it was found that classical approaches had underestimated the variability by the astronomical factor of a quadrillion (a million billion). Author Shaun Lovejoy asks - and answers - many fundamental questions such as: Is the atmosphere random or deterministic? What is turbulence? How big is a cloud (what is the appropriate notion of size itself)? What is its dimension? How can we conceptualize the structures within structures within structures spanning millimeters to thousands of kilometers and milliseconds to the age of the planet? What is weather? What is climate? Lovejoy shows in simple terms why the industrial epoch warming can't be natural - much simpler than trying to show that it's anthropogenic. We will discuss in simple terms how to make the best seasonal and annual forecasts - without giant numerical models. Above all, the book offers readers a new understanding of the atmosphere.
