Leading with Values Aug 05 2021 Values-based leadership is based upon honesty, respect, trust and dignity, and it regards every employee within a company as a valued human being. This book describes the characteristics of leaders who focus on positivity and virtues to create and sustain highly successful organizations such as Synovus Financial Corporation, HomeBanc Mortgage Company, and the United States Marine Corps. It also addresses leader mistakes and forgiveness, and how difficulties and challenges can be overcome to achieve spectacular results. This inspiring book offers practical advice that can be applied to individual

leadership styles and roles. As society tries to rebound from the recent scandals involving fraud, financial improprieties, and unethical behavior among its leadership, the fundamental message of Leading with Values is clear: acting ethically and virtuously, and treating all stakeholders with respect and dignity, can create extraordinary outcomes without sacrificing performance and profits.

Elastic And Inelastic Stress Analysis Jan 30 2021 Presents certain key aspects of inelastic solid mechanics centered around viscoelasticity, creep, viscoplasticity, and plasticity. It is divided into three parts consisting of the fundamentals of elasticity, useful constitutive laws, and applications to simple structural members, providing extended treatment of basic problems in static structural mechanics, including elastic and inelastic effects. It contains worked-out examples and end-of-chapter problems.

Mechanics of Fluids Jun 22 2020 In keeping with previous editions, this book offers a strong conceptual approach to fluids, based on mechanics principles. The author provides rigorous coverage of underlying math and physics principles, and establishes clear links between the basics of fluid flow and subsequent advanced topics like compressible flow and viscous fluid flow.

Admiralty Manual of Navigation May 22 2020

"..a practical guide for seamen officers covering the syllabus laid down for examination in Navigation and Pilotage for the rank of Lieutenant, by omitting the study of nautical astronomy and meteorology". (Preface)

Introduction to Solid Mechanics Sep 25 2020
Rather than a rote "cookbook" approach to
problem-solving, this book offers a rigorous
treatment of the principles behind the practices,
asking students to harness their sound
foundation of theory when solving problems. A
wealth of examples illustrate the meaning of the
theory without simply offering recipes or maps
for solving similar problems.
Emergent Masculinities Dec 17 2019
Atlanticization--or interaction between regional
processes and Atlantic forces such as the slave
trade and Christianization--from 1750 to 1920
transformed gender into a primary mode of
social differentiation in the Bight of Biafra. Mbah
examines this process to fill a major gap in our
understanding of gender's role in precolonial
Africa.
Report of Statistician Nov 08 2021
Modernist Art in Ethiopia Jan 18 2020 If
modernism initially came to Africa through
colonial contact, what does Ethiopia's inimitable
historical condition—its independence save for
five years under Italian occupation—mean for its
own modernist tradition? In *Modernist Art in
Ethiopia*—the first book-length study of the
topic—Elizabeth W. Giorgis recognizes that her
home country's supposed singularity,
particularly as it pertains to its history from
1900 to the present, cannot be conceived outside
the broader colonial legacy. She uses the
evolution of modernist art in Ethiopia to open up
the intellectual, cultural, and political histories
of it in a pan-African context. Giorgis explores
the varied precedents of the country's political
and intellectual history to understand the ways
in which the import and range of visual
narratives were mediated across different

moments, and to reveal the conditions that account for the extraordinary dynamism of the visual arts in Ethiopia. In locating its arguments at the intersection of visual culture and literary and performance studies, *Modernist Art in Ethiopia* details how innovations in visual art intersected with shifts in philosophical and ideological narratives of modernity. The result is profoundly innovative work—a bold intellectual, cultural, and political history of Ethiopia, with art as its centerpiece.

Women Laughing Alone with Salad Nov 15 2019 What's on the menu for Meredith, Tori, and Sandy, the three women in Guy's life? Healthy lifestyles, upward mobility, meaningful sex? Or self-loathing and distorted priorities? Inspired by the strangely ubiquitous advertising trend of picturing attractive women blissfully eating salad, award-winning playwright Sheila Callaghan breaks all the rules of our image-obsessed culture in *Women Laughing Alone With Salad*. This raw comedy is served with a side of feminism and tossed with audacious imagery, biting social critique, and devastating humor.

Disproportionate Minority Contact May 14 2022
Disproportionate Minority Contact: Current Issues and Policies focuses on a variety of topics related to minority overrepresentation and disparity in the criminal and juvenile justice systems. The goal of this edited volume is to provide an assortment of information on overrepresentation and disparity in one collection. This volume is capable of serving as a standalone text or works well as a supplement to a traditional textbook on race and crime. Likewise, this volume is written in such a way that it is also practical enough for those working in the justice system to use it as a tool for exploring and implementing change in their jurisdiction. For the second edition, nine of the original chapters were revised and three chapters were added. All of the revisions and writing took place after the Michael Brown shooting in Ferguson, Missouri. Praise for the First Edition of *Disproportionate Minority Contact* "Parsons-Pollard has assembled a team of contributors who are experts in the subject matter disproportionate minority contact. She

and her colleagues plow into the issues, providing a rich, provocative, well-written, issues-driven text that presents ample material for many courses, including special topics and senior seminars. The importance of the topic, the caliber of the contributors, and the quality of the writing makes this text a must-read for those currently in the field and anyone else who has an interest in criminal justice." --Laura Moriarty, Provost and Vice President for Academic Affairs at Monmouth University "Parsons-Pollard and the authors of Disproportionate Minority Contact have made a major contribution to academicians, policy makers, practitioners and community members involved in efforts to reduce the disproportionate representation of youth in the juvenile justice system. They do this in part through the exploration of the research in this area, including the complexities of the Relative Rate Index and analysis of the impact of decision points on disparate treatment and the overall rate of disproportionality. Their investigation, however, does not end there. They lift up the need for the collection of data that will inform this work at the local level and the need for transparency in sharing and analyzing it. Further, they examine the relationship of school policies and the disproportionate representation of children of color in the child welfare system and the need for a cross systems approach to successfully reduce rates of disproportionate minority contact. The picture painted in this thoughtful treatment is one of hope, but also one filled with great challenges; that there are no easy answers or 'low hanging fruit' as we work in this area. The authors make clear, however, that our efforts are absolutely essential in ensuring fairness, equity and full opportunity for youth of color in our society. They are to be commended for shining this bright, illuminating light on such an important social issue." --Shay Bilchik, Founder and Director of the Center for Juvenile Justice Reform at Georgetown University Public Policy Institute "I know of no other source of information on disproportionality in criminal and juvenile justice that is as comprehensive or thorough as this book. It will immediately become the definitive authority on the subject." --Judge Jerrauld C. Jones, Norfolk Circuit Court, 4th Judicial Circuit of Virginia "[Disproportionate Minority Contact] should be

an adopted book for 21st century juvenile and criminal justice courses and integrated into course curriculum at the undergraduate and graduate level . . . By reading the book, juvenile and criminal justice students will learn how their role as citizens and professionals can impact DMC [disproportionate minority contact]." -- ACJS Today

The Impossible Will Take a Little While Nov 27 2020 More relevant than ever, this seminal collection of essays encourages us to believe in the power of ordinary citizens to change the world In today's turbulent world it's hard not to feel like we're going backwards; after decades of striving, justice and equality still seem like far off goals. What keeps us going when times get tough? How have the leaders and unsung heroes of world-changing political movements persevered in the face of cynicism, fear, and seemingly overwhelming odds? In *The Impossible Will Take a Little While*, they answer these questions in their own words, creating a conversation among some of the most visionary and eloquent voices of our times. Today, more than ever, we need their words and their wisdom. In this revised edition, Paul Rogat Loeb has comprehensively updated this classic work on what it's like to go up against Goliath -- whether South African apartheid, Mississippi segregation, Middle East dictatorships, or the corporations driving global climate change. Without sugarcoating the obstacles, these stories inspire hope to keep moving forward. Think of this book as a conversation among some of the most visionary and eloquent voices of our times -- or any time: Contributors include Maya Angelou, Diane Ackerman, Marian Wright Edelman, Wael Ghonim, Váav Havel, Paul Hawken, Seamus Heaney, Jonathan Kozol, Tony Kushner, Audre Lorde, Nelson Mandela, Bill McKibben, Bill Moyers, Pablo Neruda, Mary Pipher, Arundhati Roy, Dan Savage, Desmond Tutu, Alice Walker, Cornel West, Terry Tempest Williams, and Howard Zinn.

[The Graham Kerr Cookbook](#) Sep 18 2022 A new edition of a beloved cookbook celebrating the classic dishes and witty humor that were signature to TV chef Graham Kerr's *The Galloping Gourmet*. With his hallmark joyous

abandon, British-born chef Graham Kerr was a pioneer of food television, hosting the popular series *The Galloping Gourmet* from 1969 to 1971. Kerr presented approachable, step-by-step instructions for recipes packed with personality and flavor. A bible for generations of fans, this classic cookbook is now reissued, with new commentary from Kerr and an introduction by the Lee brothers. Kerr's knowing and fun-loving approach to home cooking was ahead of its time, and has more in common with Mario Batali's or Jamie Oliver's outlook than with his 1960s contemporaries. Like Batali, Kerr was a passionate cook who was also not afraid to have fun in the kitchen. The encyclopedic variety of recipes—ranging from the basics of brewing coffee and deep excursions into egg cookery, to more sophisticated preparations of fish and poultry—combined with Kerr's devotion to technique, ingredients, and presentation open up a world of lost classics for today's home cook. Featuring step-by-step illustrations alongside new commentary updating the recipes for contemporary tastes, this edition gives today's home chefs the best of cooking from the exuberant postwar era.

Solid-Liquid Filtration and Separation

Technology Feb 11 2022 A valuable presentation of theoretical and practical information in the area of liquid-solid filtration. The development of theoretical models is highlighted with practical design data and problem-related examples. Modern trends, e.g., membrane systems, are reported together with the fundamental aspects of particulate technology. The increasing interest in pollution control and environmental protection provides an expansive market for this book. Chemical engineers, chemists, physicists, water treatment/sewage engineers, civil engineers and all those concerned with filtration and pollution will find this book of tremendous value and practical use.

State Responses to Serious and Violent Juvenile Crime Dec 21 2022 This report documents the changes sweeping across the Nation in the handling of serious and violent juvenile offenders. All legislation enacted in 1992-95 that targeted violent or other serious crime by juveniles was analyzed to determine common themes and trends. Telephone surveys of juvenile justice practitioners in every State provided anecdotal information about substantive and procedural changes that have occurred as a result of the new laws. This report presents a compilation of these changes, an analysis of the direction of those changes &, where appropriate, a historical perspective. Charts and tables.
