From John Della Volpe, the director of polling at the Harvard Institute of Politics, *Fight* is an exploration of Gen Z, the issues that matter most to them, and how they will shape the future. 9/11. The war on terror. Hurricane Katrina. The 2008 financial crisis. The housing crisis. The opioid epidemic. Mass school shootings. Global warming. The Trump presidency. COVID-19. Since they were born, Generation Z (also known as "zoomers")—those born from the late 1990s to early 2000s—have been faced with an onslaught of turmoil, destruction and

instability unprecedented in modern history. And it shows: they are more stressed, anxious, and depressed than previous generations, a phenomenon John Della Volpe has documented heavily through decades of meeting with groups of young Americans across the country. But Gen Z has not buckled under this tremendous weight. On the contrary, they have organized around issues from gun control to racial and environmental justice to economic equity, becoming more politically engaged than their elders, and showing a unique willingness to disrupt the status quo. In *Fight: How Gen Z Is Channeling Their Passion and Fear to Save America*, Della Volpe draws on his vast experience to show the largest forces shaping zoomers' lives, the issues they care most about, and how they are—despite older Americans' efforts to label Gen Z as overly sensitive, lazy, and entitled—rising to the unprecedented challenges of their time to take control of their country and our future. When women understand how God has empowered them, they can "wield the sword" of feminine strength against any evil that threatens them and those they love. What if you discovered you have been entrusted with an invisible, invincible, and incorruptible weapon? Would you use it? In a day of worldwide trafficking, gendercide, discrimination, and other hostility against women, Lisa Bevere points to a biblical foundation to present a model of feminine strength that will empower women to live confidently. Drawing on the many references to swords throughout Scripture, the author constructs a revealing and compelling female paradigm that will impact every area of a woman's self identity, spiritual awareness, relationships, and life vision and mission. Long known for her passionate and articulate expression of biblical womanhood, Bevere presents fresh imagery--as enticing and strong as polished steel--to prepare women boldly for the challenges they face in today's world. It's not enough to just be wise and strong: Now a woman must know how to wield her sword. Creatively forging the imagery of swords, the Word of God, and the Cross, *Girls with*

Swords will teach you: • How to speak the language of heaven on earth • What it means to intercede • What it means to carry your cross • What it means to be discerning • How to disarm the enemy • Why women are the enemy's target—and why God needs them to be heroes It's time to take up your sword and be a hero.

This pathbreaking study traces the rise--and subsequent fall--of the United Packinghouse Workers of America (UPWA). Roger Horowitz emphasizes local leaders and meatpacking workers in Chicago, Kansas City, Sioux City, and Austin, Minnesota, and closely examines the unionizing of the workplace and the prominent role of black workers and women in UPWA. In clear, anecdotal style, Horowitz shows how three major firms in U.S. meat production and distribution became dominant by virtually eliminating union power. The union's decline, he argues, reflected massive pressure by capital for lower labor costs and greater control over the work process. In the end, the victorious firms were those that had been most successful at increasing the rate of exploitation of their workers, who now labor in conditions as bad as those of a century ago. "The definitive study of unionism in the meatpacking industry for the period since the 1920's." -- James R. Barrett, author of *Work and Community in the Jungle: Chicago's Packinghouse Workers, 1894-1922* A volume in the series *The Working Class in American History*, edited by David Brody, Alice Kessler-Harris, David Montgomery, and Sean Wilentz Supported by the Illinois Labor History Society

In the summer of 1965, an eighteen-year old boy, filled with frustration and anger at the injustices of the segregated society in his hometown of Troy, Alabama, volunteers to help Civil Rights workers sent to Alabama by the Southern Christian Leadership Conference as part of a campaign to register black people to vote. A few short months later he finds himself in Atlanta, standing in the sanctuary of Ebenezer Baptist Church, being interviewed by Dr. Martin Luther King, Jr. for a position on SCLC's field staff. As a young foot soldier in the Civil Rights Movement, John Reynolds was an

eyewitness to history. In *The Fight for Freedom*, he shares his experiences in some of the hot spots of that day, such as Selma, Birmingham, and Mississippi. A passionate and dedicated soldier, Reynolds was jailed more than twenty times and beaten on a number of occasions as he went through some of the toughest battles of the Movement and played a role in awakening the national conscience and redeeming the soul of America. There is joy and triumph in the Christian life. The eternal God loves us and calls us to the highest good that we can enjoy. But that goal is achieved only by a fight. In this classic guide to the Christian life, John White introduces the key areas in which we must wrestle time and again, including prayer and Bible study, faith and temptation, relationships and holiness. He lets us see our enemies: the spirit of the age, our own sinful nature, and the powers of darkness. And he gives us the encouragement to persevere in the battle. New Christians who read this book will take their first steps in Christian living with confidence. Established disciples will find refreshing insights into the struggles and joys of life in Christ. According to White, the cost of following Jesus is not cheap. The cost is substantial, but the benefits, rewards, and joys that come with a commitment to Him are well worth it. A great book for parents and teachers to use with teens struggling with grief and loss.

The Fetterman Fight ranks among the most crushing defeats suffered by the U.S. Army in the nineteenth-century West. On December 21, 1866—during Red Cloud's War (1866-1868)—a well-organized force of 1,500 to 2,000 Oglala Lakota, Northern Cheyenne, and Arapaho warriors annihilated a detachment of seventy-nine infantry and cavalry soldiers—among them Captain William Judd Fetterman—and two civilian contractors. With no survivors on the U.S. side, the only eyewitness accounts of the battle came from Lakota and Cheyenne participants. In *Eyewitness to the Fetterman Fight*, award-winning historian John H. Monnett presents these Native views, drawn from previously published sources as well as newly

discovered interviews with Oglala and Cheyenne warriors and leaders. Supplemented with archaeological evidence, these narratives flesh out historical understanding of Red Cloud's War. Climate change in the mid-nineteenth century made the resource-rich Powder River Country in today's Wyoming increasingly important to Plains Indians. At the same time, the discovery of gold in Montana encouraged prospectors to pass through the Powder River region on their way north, and so the U.S. Army began to construct new forts along the Bozeman Trail. In the resulting conflict, the Lakotas and Cheyennes defended their hunting ranges and trade routes. Traditional histories have laid the blame for Fetterman's 1866 defeat and death on his incompetent leadership—and thus implied that the Indian alliance succeeded only because of Fetterman's personal failings. Monnett's sources paint another picture. Narratives like those of Miniconjou Lakota warrior White Bull suggest that Fetterman's actions were not seen as rash or reprehensible until after the fact. Nor did his men flee the field in panic. Rather, they fought bravely to the end. The Indians, for their part, used their knowledge of the terrain to carefully plan and execute an ambush, ensuring them victory. Critical to understanding the nuances of Plains Indian strategy and tactics, the firsthand narratives in *Eyewitness to the Fetterman Fight* reveal the true nature of this Native victory against regular army forces.

Obstruction of justice, the specter of impeachment, sexism at work, shocking revelations: Jill Wine-Banks takes us inside her trial by fire as a Watergate prosecutor. It was a time, much like today, when Americans feared for the future of their democracy, and women stood up for equal treatment. At the crossroads of the Watergate scandal and the women's movement was a young lawyer named Jill Wine Volner (as she was then known), barely thirty years old and the only woman on the team that prosecuted the highest-ranking White House officials. Called "the mini-skirted lawyer" by the press, she fought to receive the respect

accorded her male counterparts—and prevailed. In *The Watergate Girl*, Jill Wine-Banks opens a window on this troubled time in American history. It is impossible to read about the crimes of Richard Nixon and the people around him without drawing parallels to today's headlines. The book is also the story of a young woman who sought to make her professional mark while trapped in a failing marriage, buffeted by sexist preconceptions, and harboring secrets of her own. Her house was burgled, her phones were tapped, and even her office garbage was rifled through. At once a cautionary tale and an inspiration for those who believe in the power of justice and the rule of law, *The Watergate Girl* is a revelation about our country, our politics, and who we are as a society.

John Podlaski's encore Vietnam War novel brings back John ('Polack') Kowalski, the central character in 'Cherries', and introduces us to Louis ('LG') Gladwell, his irrepressible black friend. Polack and LG are a 'Salt and Pepper' team, best buddies and brothers in a way that only those who have fought side-by-side in a war can ever truly understand. The year is 1970, and the story follows the two soldiers - impressionable Detroit teenagers - during their long night in a Listening Post ('LP'), some 500 meters beyond the bunker line of the new firebase. Their assignment as a "human early warning system", is to listen for enemy activity and forewarn the base of any potential dangers. As they were new to the "Iron Triangle" and its reputation, little did they know that units before them lost dozens of soldiers in this nightly high-risk task and referred to those assigned as "bait for the enemy" and "sacrificial lambs". Sitting in the pitch black tropical jungle - with visibility at less than two feet - John's imagination takes hold throughout the agonizing night, and at times, transports him back to some of his most vivid childhood memories - innocent, but equally terrifying at the time. As kids, we instinctively run as fast as we can to escape imaginary or perceived danger, but as soldiers, men are trained to conquer their fears and develop the confidence to stand

their ground and fight. Running is not an option. In 'When Can I Stop Running?' the author juxtaposes his nightmarish hours in the bush with some of his most heart-pounding childhood escapades. Readers will relate to the humorous childish antics with amusement; military veterans will find themselves relating to both of the entertaining and compelling recollections. A wide-ranging anthology of the most insightful writings on harnessing the vital life force present in all human beings. With an emphasis on theory and personal practice, this book will appeal to a wide range of people interested in Kundalini concepts. Recipient of a 1989 Christian Home & School C.S. Lewis Gold Medal award!

Eleanor McFarland and John Wilson join Gaal, the Son of the High Emperor, in a battle to thwart the evil plans of Lord Lunacy. Book Two in John White's Archives of Anthropos. Winner of the 1989 C. S. Lewis Gold Medal from Christian Home & School. John White has extensively interviewed many people, including those from John Wimber's Vineyard Christian Fellowship. His years of work as a psychiatrist and as a missionary in the Third World qualify him in a special way to analyze the experiences described in this book. In addition he has thoroughly studied revivals of the past, highlighting the differences and the similarities to what is happening today. As always, John White remains thoroughly biblical as he handles many controversial topics. The result is a book full of practical wisdom and remarkable insight with conclusions that are fresh and surprising. A police car rolls up in front of your house--with your son in the back seat. A voice on the phone says your daughter is all right but won't tell you where she is--and then hangs up. A wallet disappears from your dresser and you're sure who took it--at least, somewhat sure. Many parents face problems beyond their ability to cope. John White offers comfort to parents of children with severe problems--alcoholism, homosexuality, even suicide. Though he gives practical suggestions, this is not a how-to manual for making rebellious children behave. Rather the author helps all parents deal with

their own guilt, frustration, anger and sense of inadequacy. White first asks, Why has the child rearing become such a complicated task? He looks to common sense, science and the Bible for an answer. Next he focuses on the parent-child relationship itself as trust erodes, arguments arise and the need for professional or legal counsel develops. Finally, he cautions us to avoid parenting techniques which emphasize pragmatism at the expense of what is moral and just. A book of comfort and counsel to parents in pain. The story of black emancipation is one of the most dramatic themes of American history, covering racism, murder, poverty and extreme heroism. Figures such as Malcolm X and Martin Luther King are the demigods of the freedom movements, both film and household figures. This major text explores the African-American experience of the twentieth century with particular reference to six outstanding race leaders. Their philosophies and strategies for racial advancement are compared and set against the historical framework and constraints within which they functioned. The book also examines the 'grass roots' of black protest movements in America, paying particular attention to the major civil rights organizations as well as black separatist groups such as the Nation of Islam. A concise history of how American law has shaped—and been shaped by—the experience of contagion “Contrarians and the civic-minded alike will find Witt’s legal survey a fascinating resource”—Kirkus, starred review “Professor Witt’s book is an original and thoughtful contribution to the interdisciplinary study of disease and American law. Although he covers the broad sweep of the American experience of epidemics from yellow fever to COVID-19, he is especially timely in his exploration of the legal background to the current disaster of the American response to the coronavirus. A thought-provoking, readable, and important work.”—Frank Snowden, author of *Epidemics and Society* From yellow fever to smallpox to polio to AIDS to COVID-19, epidemics have prompted Americans to make choices and answer questions about their basic values

and their laws. In five concise chapters, historian John Fabian Witt traces the legal history of epidemics, showing how infectious disease has both shaped, and been shaped by, the law. Arguing that throughout American history legal approaches to public health have been liberal for some communities and authoritarian for others, Witt shows us how history's answers to the major questions brought up by previous epidemics help shape our answers today: What is the relationship between individual liberty and the common good? What is the role of the federal government, and what is the role of the states? Will long-standing traditions of government and law give way to the social imperatives of an epidemic? Will we let the inequities of our mixed tradition continue? The International Bestseller 'With clarity and compassion, DiAngelo allows us to understand racism as a practice not restricted to "bad people." In doing so, she moves our national discussions forward. This is a necessary book for all people invested in societal change' Claudia Rankine Anger. Fear. Guilt. Denial. Silence. These are the ways in which ordinary white people react when it is pointed out to them that they have done or said something that has - unintentionally - caused racial offence or hurt. After, all, a racist is the worst thing a person can be, right? But these reactions only serve to silence people of colour, who cannot give honest feedback to 'liberal' white people lest they provoke a dangerous emotional reaction. Robin DiAngelo coined the term 'White Fragility' in 2011 to describe this process and is here to show us how it serves to uphold the system of white supremacy. Using knowledge and insight gained over decades of running racial awareness workshops and working on this idea as a Professor of Whiteness Studies, she shows us how we can start having more honest conversations, listen to each other better and react to feedback with grace and humility. It is not enough to simply hold abstract progressive views and condemn the obvious racists on social media - change starts with us all at a practical, granular level, and it is time for all white people to take

responsibility for relinquishing their own racial supremacy. 'By turns mordant and then inspirational, an argument that powerful forces and tragic histories stack the deck fully against racial justice alongside one that we need only to be clearer, try harder, and do better' David Roediger, Los Angeles Review of Books 'The value in White Fragility lies in its methodical, irrefutable exposure of racism in thought and action, and its call for humility and vigilance' Katy Waldman, New Yorker 'A vital, necessary, and beautiful book' Michael Eric Dyson There is joy triumph in the Christian life. But the victory can come through struggle. John White knows this balance and gives you the encouragement to persevere. Here is his handbook for Christian living--covering prayer, fellowship, Bible study, evangelism, work and more. In the late 1850s, at a time when many men and women spoke out against slavery, few had the same impact as John Brown, the infamous white abolitionist who backed his beliefs with unstoppable action. The Souls of Black Folk W. E. B. Du Bois - One of the Most Important Books on Civil Rights, Race, and Freedom Ever Written. It is a seminal work in the history of sociology and a cornerstone of African-American literature and a monumental collection of essays that examines race and racism in America during the early 1900s and prior. To develop this work, Du Bois drew from his own experiences as an African American in American society. Outside of its notable relevance in African-American history, The Souls of Black Folk also holds an important place in social science as one of the early works in the field of sociology. The Souls of Black Folk is perfect for anyone interested in African-America literature and history A groundbreaking, revelatory history of Abraham Lincoln's plan to secure a just and lasting peace after the Civil War—a vision that inspired future presidents as well as the world's most famous peacemakers, including Nelson Mandela, Mahatma Gandhi, and Martin Luther King, Jr. It is a story of war and peace, race and reconciliation. As the tide of the Civil War turned in the spring of 1865, Abraham

Lincoln took a dangerous two-week trip to visit the troops on the front lines accompanied by his young son, seeing combat up close, meeting liberated slaves in the ruins of Richmond, and comforting wounded Union and Confederate soldiers. The power of Lincoln's personal example in the closing days of the war offers a portrait of a peacemaker. He did not demonize people he disagreed with. He used humor, logic, and scripture to depolarize bitter debates. Balancing moral courage with moderation, Lincoln believed that decency could be the most practical form of politics, but he understood that people were more inclined to listen to reason when greeted from a position of strength. Ulysses S. Grant's famously generous terms of surrender to General Robert E. Lee at Appomattox that April were a direct expression of the president's belief that a soft peace should follow a hard war. While his assassination sent the country careening off course, Lincoln's vision would be vindicated long after his death, inspiring future generations in their own quests to secure a just and lasting peace. As US General Lucius Clay, architect of the post-WWII German occupation, said when asked what guided his decisions: "I tried to think of the kind of occupation the South would have had if Abraham Lincoln had lived." Lincoln and the Fight for Peace reveals how Lincoln's character informed his commitment to unconditional surrender followed by a magnanimous peace. Even during the Civil War, surrounded by reactionaries and radicals, he refused to back down from his belief that there is more that unites us than divides us. But he also understood that peace needs to be waged with as much intensity as war. Lincoln's plan to win the peace is his unfinished symphony, but in its existing notes, we can find an anthem that can begin to bridge our divisions today. Dancing on a Razor chronicles, in a series of dynamic short personal stories, the life and redemption of Kevin John White, son of internationally known author and lecturer Dr. John White. Despite Kevin's fear and rebelliousness against God, God continues to perform astonishing

miracles throughout Kevin's lifetime to draw him back to Himself

John White offers a dynamic alternative to secular styles of leadership and management. Study and discussion questions included. Property will cost us the earth

The science on climate change has been clear for a very long time now. Yet despite decades of appeals, mass street protests, petition campaigns, and peaceful demonstrations, we are still facing a booming fossil fuel industry, rising seas, rising emission levels, and a rising temperature. With the stakes so high, why haven't we moved beyond peaceful protest? In this lyrical manifesto, noted climate scholar (and saboteur of SUV tires and coal mines) Andreas Malm makes an impassioned call for the climate movement to escalate its tactics in the face of ecological collapse. We need, he argues, to force fossil fuel extraction to stop--with our actions, with our bodies, and by defusing and destroying its tools. We need, in short, to start blowing up some oil pipelines. Offering a counter-history of how mass popular change has occurred, from the democratic revolutions overthrowing dictators to the movement against apartheid and for women's suffrage, Malm argues that the strategic acceptance of property destruction and violence has been the only route for revolutionary change. In a braided narrative that moves from the forests of Germany and the streets of London to the deserts of Iraq, Malm offers us an incisive discussion of the politics and ethics of pacifism and violence, democracy and social change, strategy and tactics, and a movement compelled by both the heart and the mind. Here is how we fight in a world on fire.

Left at home by themselves one snowy evening, three youngsters enter the magical kingdom of Anthropos.

NEW YORK TIMES BESTSELLER

The "paradigm-influencing" book (Christianity Today) that is fundamentally transforming our understanding of white evangelicalism in America.

Jesus and John Wayne is a sweeping, revisionist history of the last seventy-five years of white evangelicalism, revealing how evangelicals have worked to replace the Jesus of the Gospels

with an idol of rugged masculinity and Christian nationalism—or in the words of one modern chaplain, with “a spiritual badass.” As acclaimed scholar Kristin Du Mez explains, the key to understanding this transformation is to recognize the centrality of popular culture in contemporary American evangelicalism. Many of today’s evangelicals might not be theologically astute, but they know their VeggieTales, they’ve read John Eldredge’s *Wild at Heart*, and they learned about purity before they learned about sex—and they have a silver ring to prove it. Evangelical books, films, music, clothing, and merchandise shape the beliefs of millions. And evangelical culture is teeming with muscular heroes—mythical warriors and rugged soldiers, men like Oliver North, Ronald Reagan, Mel Gibson, and the Duck Dynasty clan, who assert white masculine power in defense of “Christian America.” Chief among these evangelical legends is John Wayne, an icon of a lost time when men were uncowed by political correctness, unafraid to tell it like it was, and did what needed to be done. Challenging the commonly held assumption that the “moral majority” backed Donald Trump in 2016 and 2020 for purely pragmatic reasons, Du Mez reveals that Trump in fact represented the fulfillment, rather than the betrayal, of white evangelicals’ most deeply held values: patriarchy, authoritarian rule, aggressive foreign policy, fear of Islam, ambivalence toward #MeToo, and opposition to Black Lives Matter and the LGBTQ community. A much-needed reexamination of perhaps the most influential subculture in this country, *Jesus and John Wayne* shows that, far from adhering to biblical principles, modern white evangelicals have remade their faith, with enduring consequences for all Americans. John White draws insight not only from his own experience and from experiences of other Christians, but also from the Puritans, who had much to say about the joys and challenges of personal holiness. *Bars Fight*, a ballad telling the tale of an ambush by Native Americans on two families in 1746 in a Massachusetts meadow, is the oldest known work by an African-

American author. Passed on orally until it was recorded in Josiah Gilbert Holland's History of Western Massachusetts in 1855, the ballad is a landmark in the history of literature that should be on every book lover's shelves. The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self. Examining ten prayers recorded in the Bible, John White uncovers lessons about the discipline and privilege of prayer. The fifth and final book in the heart-warming White Giraffe series by Lauren St John, featuring the African adventures of Martine and her magical white giraffe. Martine is starstruck when her boyband hero visits Sawubona for a safari. But within hours, poachers have pounced, leaving behind an orphaned rhino calf. Martine and Ben are entrusted with taking the baby rhino to a remote sanctuary. But Martine has a guilty secret - one that's stolen her healing gift. Alone in the wilderness, with the poachers closing in, Martine and Ben need all of the survival skills they possess to save one of the most endangered animals on earth. 'A gripping account of a physicist whose speculations could prove as revolutionary as those of Albert Einstein . . . Its combination of erudition, warmth, robustness, and wit is entirely appropriate to their subject' New Statesman 'Intriguing . . . There are larger questions here than the life of even this singular man' Peter Ackroyd, The Times Stephen Hawking was no ordinary scientist. He managed to do more than perhaps any other physicist to broaden our basic understanding of the universe. This skilful portrait of an indefatigable genius traces the course of Hawking's life and science, marrying biography and physics to tell the story of a remarkable man. From the New York Times bestselling author of The Gatekeepers comes a revelatory, news-making look at how President Joe Biden and his seasoned team have battled to achieve their agenda—based on the author's extraordinary access

to the White House during two years of crises at home and abroad. In January of 2021, the Biden administration inherited the most daunting array of challenges since FDR's presidency: a lethal pandemic, a plummeting economy, an unresolved twenty-year war, and the aftermath of an attack on the Capitol that polarized the country. Waves of crises followed, including the fallout from a divisive Supreme Court, raging inflation, and Vladimir Putin's unprovoked invasion of Ukraine. Now, in *The Fight of His Life*, prizewinning journalist Chris Whipple takes us inside the Oval Office as the critical decisions of Biden's presidency are being made. With remarkable access to both President Biden and his inner circle—including Chief of Staff Ron Klain, Secretary of State Antony Blinken, and CIA Director William Burns—Whipple pulls back the curtain on the internal power struggles and back-room compromises. Featuring shocking new details about how renegade Trump officials enabled the transfer of power, which key staffers really make the White House run (it's probably not who you think), why Joe Biden no longer speaks freely around his security detail, and what he really thinks of Vice President Kamala Harris, the press, and living in the White House, *The Fight of His Life* delivers a stunning portrait of politics on the edge. "Fight House looks juicy as all hell" - National Review "Troy seamlessly weaves West Wing gossip with significant moments in modern history." - Jewish Insider

**THE WHITE HOUSE HAS ALWAYS BEEN A FIGHT HOUSE** President Trump's White House is famously tumultuous. But as presidential historian and former White House staffer Tevi Troy reminds us, bitter rivalries inside the White House are nothing new. From the presidencies of Harry S. Truman, when the modern White House staff took shape, to Donald Trump, the White House has been filled with ambitious people playing for the highest stakes and bearing bitter grudges. In *Fight House*, you'll discover: -The advisor to President Harry Truman that General George Marshall refused to acknowledge -How the supposed "Camelot" Kennedy

White House was rife with conflict -How Dr. Henry Kissinger displaced other national security advisors to gain President Richard Nixon's ear -Why President Jimmy Carter's personal pettiness and obsession with detail led to a dysfunctional White House—and played a role in his losing the 1980 election -How the contrasting management styles of President Ronald Reagan and First Lady Nancy Reagan led to some epic White House staff clashes -Why the “No Drama Obama” White House was anything but no drama Insightful, entertaining, and important, Tevi Troy's Fight House will delight and instruct anyone interested in American politics and presidential history. An NBA veteran offers engaging interviews and reflections that explore police brutality, white supremacy, and the struggle for racial justice in America. "Thomas's interviews demand careful reading by all who want to expose racism, hold police accountable, and create an American society that practices social justice." --Library Journal, STARRED review "My family and I are extremely grateful for the support and love from my brother in the movement, Etan Thomas." -- Emerald Garner, daughter of Eric Garner "I'm extremely grateful to Etan for continuing to shine a light on how police violence has harmed families across the nation. Our stories matter." --Dr. Tiffany Crutcher, twin sister of Terence Crutcher ETAN THOMAS, an eleven-year NBA veteran and lifelong advocate for social justice, weaves together his personal experiences with police violence and white supremacy with multiple interviews of family members of victims of police brutality like exonerated Central Park Five survivor Raymond Santana and Rodney King's daughter Lora Dene King; as well as activist athletes and other public figures such as Steph Curry, Chuck D, Isiah Thomas, Sue Bird, Jake Tapper, Jemele Hill, Stan Van Gundy, Kyle Korver, Mark Cuban, Rick Strom, and many more. Thomas speaks with retired police officers about their efforts to change policing, and white allies about their experiences with privilege and their ability to influence other white people. Thomas also examines the history of

racism, white supremacy, and the prevalence of both in the current moment. He looks at the origins of white supremacy in the US, dating back to the country's inception, and explores how it was interwoven into Christianity--interviewing leading voices both in and outside of the church. Finally, with prominent voices in the media and education, Thomas discusses the continued cultivation of these injustices in American society. Police Brutality and White Supremacy demands accountability and justice for those responsible for and impacted by police violence and terror. It offers practical solutions to work against the promotion of white supremacy in law enforcement, Christianity, early education, and across the public sphere. Featuring original interviews with: Steph Curry, Chuck D, Yamiche Alcindor, Isiah Thomas, Jemele Hill, Craig Hodges, Stan Van Gundy, Mark Cuban, Jake Tapper, Mahmoud Abdul-Rauf, Sue Bird, Kyle Korver, Rick Strom, Cenk Uygur, Tim Wise, Chris Broussard, Breanna Stewart, Rex Chapman, Stephen Jackson, Kori Mccoy, Lora Dene King, Chikesia Clemons, Raymond Santana, Alissa Findley, Amber And Ashley Carr, Michelle And Ashley Monterrosa, Chairman Fred Hampton Jr., Abiodun Oyewole, Marc Lamont Hill, Officer Carlton Berkley, Pastor John K. Jenkins Sr., Officer Joe Ested, Captain Sonia Pruitt, and Bishop Talbert Swan. Since life is a journey, feel free to stop and ask for directions. Previously released as the bestselling *The Glorious Journey*, this practical volume by Charles Stanley shows readers how to put God's Word to work in their daily lives with this easy-to-apply handbook. As believers, our desire is to follow the Lord more closely and to utilize His Word for maximum impact in our lives. Occasionally, however, we find ourselves not even knowing the questions to ask, or the best way to approach Scripture in search of answers. Charles F. Stanley's *Handbook for Christian Living* is not a lofty theological work, nor is it an academic commentary. Instead, Dr. Stanley has prepared a friendly, easy-to-use help system for every believer. In this collection, he speaks with authority on such

issues as: the real purpose of baptism how to treat others at work a proper view of those in government how grace saves us and how worry robs us what freedom really is He also shares biblical insight into relationships, children, parenting, loneliness, sexual pressures, as well as strategies for personal growth. From the thorny issues of daily life to a framework for the end times (and everything in between), Charles F. Stanley's Handbook for Christian brings Scripture to life, makes sense of the hard questions, and enhances your understanding of the way life was meant to be lived. \*National Bestseller\*

A sweeping account of America's oldest unsolved mystery, the people racing to unearth its answer, and the sobering truths--about race, gender, and immigration--exposed by the Lost Colony of Roanoke In 1587, 115 men, women, and children arrived at Roanoke Island on the coast of North Carolina. Chartered by Queen Elizabeth I, their colony was to establish England's first foothold in the New World. But when the colony's leader, John White, returned to Roanoke from a resupply mission, his settlers were nowhere to be found. They left behind only a single clue--a "secret token" carved into a tree. Neither White nor any other European laid eyes on the colonists again. What happened to the Lost Colony of Roanoke? For four hundred years, that question has consumed historians and amateur sleuths, leading only to dead ends and hoaxes. But after a chance encounter with a British archaeologist, journalist Andrew Lawler discovered that solid answers to the mystery were within reach. He set out to unravel the enigma of the lost settlers, accompanying competing researchers, each hoping to be the first to solve its riddle. In the course of his journey, Lawler encounters a host of characters obsessed with the colonists and their fate, and he determines why the Lost Colony continues to haunt our national consciousness. Thrilling and absorbing, The Secret Token offers a new understanding not just of the first English settlement in the New World but of how its disappearance continues to define--and divide--America. As seen on Tucker

Carlson, The Ingraham Angle, The Megyn Kelly Show, The Clay Travis & Buck Sexton Show, The Next Revolution with Steve Hilton and more! What really happened behind the scenes at the Trump White House during the COVID pandemic? When Dr. Scott W. Atlas was tapped by Donald Trump to join his COVID Task Force, he was immediately thrust into a maelstrom of scientific disputes, policy debates, raging egos, politically motivated lies, and cynical media manipulation. Numerous myths and distortions surround the Trump Administration's handling of the crisis, and many pressing questions remain unanswered. Did the Trump team really bungle the response to the pandemic? Were the right decisions made about travel restrictions, lockdowns, and mask mandates? Are Drs. Anthony Fauci and Deborah Birx competent medical experts or timeserving bureaucrats? Did half a million people really die unnecessarily because of Trump's incompetence? So far no trusted figure has emerged who can tell the story straight—until now. In this unfiltered insider account, Dr. Scott Atlas brings us directly into the White House, describes the key players in the crisis, and assigns credit and blame where it is deserved. The book includes shocking evaluations of the Task Force members' limited knowledge and grasp of the science of COVID and details heated discussions with Task Force members, including all of the most controversial episodes that dominated headlines for weeks. Dr. Atlas tells the truth about the science and documents the media's relentless campaign to suffocate it, which included canceled interviews, journalists' off-camera hostility in White House briefings, and intentional distortion of facts. He also provides an inside account of the delays and timelines involving vaccines and other treatments, evaluates the impact of the lockdowns on American public health, and indicts the relentless war on truth waged by Big Business and Big Tech. No other book contains these revelations. Millions of people who trust Dr. Atlas will want to read this dramatic account of what really went on behind the scenes in the White House during the

greatest public health crisis of the 21st century.

As recognized, adventure as capably as experience about lesson, amusement, as with ease as union can be gotten by just checking out a ebook **The Fight John White** then it is not directly done, you could give a positive response even more regarding this life, approximately the world.
