A world without accounting means confusion and chaos. Accounting is not only used in the business world, but rather it is used by everyone in all types of situations. Tax touches every aspect of our lives. People are talking about tax on the TV, the radio, newspaper, and the Internet. Life has grown, as a whole, toward higher

levels of complexity. The language of accounting and taxation is also expanding: More and more new words are created, and new meanings are added to the old words. Do you know the meaning of these words: ad hoc, accounting bath, below-water, blackout, capex, carve-out, e-tax, postil, Sarbanes-Oxley, strata...? Each term has its unique meaning you may not be able to find a definition in an ordinary dictionary. "An International Dictionary of Accounting & Taxation" is a book with more than 12,000 entries drawn from accounting, auditing and

taxation. Each entry has a clear one-sentence definition right to the point. Whether you are an accountant, CPA, tax professional or amateur, you will find this dictionary of immeasurable help. This 5x8" Memo Book is perfect for writing, taking notes, school, doodling, math, science, engineering, and more. Printed on white paper, this paperback book has 104 1/4 inch graph ruled pages. Chiang Ching-kuo, son and political heir of Generalissimo Chiang Kai-shek, was born in 1910, when Chinese women, nearly all illiterate, hobbled about on bound feet and men wore

pigtails as symbols of subservience to the Manchu Dynasty. In his youth Ching-kuo was a Communist and a Trotskyite, and he lived twelve years in Russia. He died in 1988 as the leader of Taiwan, a Chinese society with a flourishing consumer economy and a budding but already wild, woolly, and open democracy. He was an actor in many of the events of the last century that shaped the history of China's struggles and achievements in the modern era: the surge of nationalism among Chinese youth, the grand appeal of Marxism-Leninism, the terrible battle against fascist Japan, and the long, destructive civil

war between the Nationalists and the Communists. In 1949, he fled to Taiwan with his father and two million Nationalists. He led the brutal suppression of dissent on the island and was a major player in the cold, sometimes hot war between Communist China and America. By reacting to changing economic, social, and political dynamics on Taiwan, Sino-American rapprochement, Deng Xiaoping's sweeping reforms on the mainland, and other international events, he led Taiwan on a zigzag but ultimately successful transition from dictatorship to

democracy. Jay Taylor underscores the interaction of political developments on the mainland and in Taiwan and concludes that if China ever makes a similar transition, it will owe much to the Taiwan example and the Generalissimo's son. This book tells the remarkable story of Robert F. Williams--one of the most influential black activists of the generation that toppled Jim Crow and forever altered the arc of American history. In the late 1950s, as president of the Monroe, North Carolina, branch of the NAACP, Williams and his followers used machine guns, dynamite, and Molotov cocktails to

confront Klan terrorists. Advocating "armed self-reliance" by blacks, Williams challenged not only white supremacists but also Martin Luther King Jr. and the civil rights establishment. Forced to flee during the 1960s to Cuba--where he broadcast "Radio Free Dixie," a program of black politics and music that could be heard as far away as Los Angeles and New York City--and then China, Williams remained a controversial figure for the rest of his life. Historians have customarily portrayed the civil rights movement as a nonviolent call on America's conscience--and the subsequent rise of

Black Power as a violent repudiation of the civil rights dream. But Radio Free Dixie reveals that both movements grew out of the same soil, confronted the same predicaments, and reflected the same quest for African American freedom. As Robert Williams's story demonstrates, independent black political action, black cultural pride, and armed self-reliance operated in the South in tension and in tandem with legal efforts and nonviolent protest. Postwar American officials desired, in principle, to promote Arab-Israeli peace in order to stabilize the Middle East. This book shows how, during the Truman and Eisenhower administrations, the desire for peace

was not always an American priority. Instead, they consistently gave more weight to their determination to contain the Soviet Union. "[E]xamines the former Congressman Melvin Laird's efforts to reconstitute the Department of Defense during the last years of the Vietnam war... Laird acted to mitigate the adverse effects of the Vietnam War on the department and to prepare the nation's armed forces for the future. Foremost was the transition from a conscripted military to an all-volunteer force, a fundamental policy shift that ended an unpopular and

inequitable draft system."--from jacket. "Report of the Dominion fishery commission on the fisheries of the province of Ontario, 1893", issued as vol. 26, no. 7, supplement. Contents: The Report: executive summary; Central America; the arms sales to Iran; exposure and concealment; the enterprise; conclusions and recommendations. Also contains the Minority report: the foreign affairs powers of the Constitution and the Iran-Contra Affair; Nicaragua; Iran; disclosure and investigations;

putting Congress' house in order; and recommendations. Extensive appendices contain additional views of several Representatives and Senators. Following the Nationalist defeat on the mainland in 1949, Chiang Kai-shek and his followers retreated to Taiwan, forming the Republic of China (ROC). Tensions with the People's Republic of China (PRC) focused on control over a number of offshore islands, especially Quemoy (Jinmen) and Matsu (Mazu). Twice in the 1950s tensions peaked, during the first (1954-55) and second (1958) Taiwan Strait crises. This small body of

water—often compared to the English Channel—separates the PRC and Taiwan, and has been the location for periodic military tensions, some threatening to end in war. Today, relations between the ROC and PRC depend on quelling tensions over the Taiwan Strait. This work provides a short, but highly relevant, history of the Taiwan Strait, and its significance today. Spin Control, originally published in 1992, chronicles the development of the powerful White House Office of Communications and its pivotal role in molding our perception of the modern presidency. In this new edition, John Maltese brings

his analysis up to date with a chapter detailing the media techniques of the Bush administration, the 1992 presidential campaign (including the use of talk shows like 'Larry King Live'), and the early Clinton administration. Annotation Employing previously classified Cabinet minutes, memoranda, letters, diaries, drafts of speeches, and other documents, Simpson (political science, U. of Western Ontario) analyzes the underlying beliefs and assumptions of high-level policymakers responsible for shaping Canada's approach to NATO in the cold war

years. For over 30 years, two conflicting belief systems--the "defenders" and the "critics"--Significantly influenced Canada's shifting defense policy, particularly in the areas of nuclear weapons acquisitions and Canadian troop contributions to Europe. Simpson's analysis helps explain contemporary defense decisions and Canada's fluctuating attitudes toward NATO, which have puzzled Americans and Europeans. Annotation c.
