RCRA Regulations and Keyword Index, 2016 Edition Nov 13 2019 RCRA Regulations and Keyword Index, 2016 Edition contains an indexed compilation of the federal hazardous waste regulations, which implement the Resource Conservation and Recovery Act (RCRA). It is designed to make the federal hazardous waste regulations more usable. RCRA Regulations and Keyword Index, 2016 Edition is composed of individual chapters that cover all of the major "Parts" of the RCRA regulations. Each of these chapters begins with a brief overview of the regulations that are discussed in the chapter and a summary of the changes made during the previous year.

Estimation of the Time Since Death Jul 22 2020 Estimation of the Time Since Death remains the

foremost authoritative book on scientifically calculating the estimated time of death postmortem. Building on the success of previous editions which covered the early postmortem period, this new edition also covers the later postmortem period including putrefactive changes, entomology, and postmortem r

Persons, Situations, and Emotions Oct 05 2021 People's experience in their everyday lives has attracted much research interest in the past two decades. This book focuses on the interplay of temperament and other personality traits with characteristics of situations and events in hourly and dailey mood fluctuations. All contributors used the Time Sampling Diary (TSD) in collecting data from a variety of populations over several weeks, at least four times a day at randomly selected points of time. Part 1 of the book introduces the TSD technique with detailed instructions for data collection, coding, and analysis. Part 2 covers reports on a study of Polish bank employees. The chapters of Part 3 reflect the experience of dangerous work situations in a steel factory, the emotional adjustment of adolescents to short and long-term unemployment, and the influences of husbands' daily or weekly commuting on their wives coping with housework and childcare. The chapters of Part 4 take a more philosophical approach to the material. The first contribution shows that personality traits influence well-being primarily in situations characterized by freedom of choice; the second introduces a rather new methodological approach clarifying the affinities of situations and subjective experience.

Multilingual Information Access Evaluation I - Text Retrieval Experiments Jul 14 2022 This book constitutes the thoroughly refereed proceedings of the 10th Workshop of the Cross Language Evaluation Forum, CLEF 2010, held in Corfu, Greece, in September/October 2009. The volume reports experiments on various types of textual document collections. It is divided into six main sections presenting the results of the following tracks: Multilingual Document Retrieval (Ad-Hoc), Multiple Language Question Answering (QA@CLEF), Multilingual Information Filtering (INFILE@CLEF), Intellectual Property (CLEF-IP) and Log File Analysis (LogCLEF), plus the activities of the MorphoChallenge Program.

Attachment, Trauma and Resilience Jul 02 2021 Kate Cairns is a social worker by profession who has also fostered 12 other children who remain part of their family group. In this compelling book she draws on the wealth of her personal and professional experience to offer a vivid glimpse into family life with children who have experienced attachment difficulties, loss, abuse and trauma, and shows in a range of everyday situations how the family responded to the powerful feelings and difficult behaviours the children displayed.

Text, Speech, and Dialogue Aug 15 2022 This book constitutes the proceedings of the 20th International Conference on Text, Speech, and Dialogue, TSD 2017, held in Prague, CzechRepublic, in August 2017. The 56 regular papers presented together with 3 abstracts of keynote talks were carefully reviewed and selected from 117 submissions. They focus on topics such as corpora and language resources; speech recognition; tagging, classification and parsing of text and speech; speech and spoken language generation; semantic processing of text and speech; integrating applications of text and speech processing; automatic dialogue systems; as well as multimodal techniques and modelling.

Multilingual Information Access for Text, Speech and Images Aug 03 2021 The ?fth campaign of the Cross-Language Evaluation Forum (CLEF) for Eu- pean languages was held from January to September 2004. Participation in the CLEF campaigns has increased each year and CLEF 2004 was no exception: 55 groups submitted results for one or more of the di?erent tracks compared with 42 groups in the previous year. CLEF 2004 also marked a breaking point with respect to previous campaigns. The focus was no longer mainly concentrated on multilingual document retrieval as in previous years but

was diversified to include different kinds of text retrieval across languages (e. g. , exact answers in the question-answering track) and retrieval on different kinds of media (i. e. , not just plain text but collections containing image and speech as well). In addition, increasing attention was given to issues that regard system usability and user satisfaction with tasks to measure the effectiveness of interactive systems or system components being included in both the cross-language question - answering and image retrieval tasks with the collaboration of the coordinators of the interactive track. The campaign culminated in a two-and-a-half-day workshop held in Bath, UK, 15–17 September, immediately following the 8th European Conference on Digital Libraries. The workshop was attended by nearly 100 researchers and system developers.

A Lender's Guide to Environmental Liability Management May 20 2020 Learn how to handle the uncertainty associated with environmental liability in *A Lender's Guide to Environmental Liability Management*. This concise, nontechnical handbook provides detailed information on how these ever-present liabilities can be managed effectively. It gives you the facts you need to explore lending opportunities in new areas while ensuring that your institution operates without unnecessary exposure to financial loss. This much-needed guide provides down-to-earth explanations of the liabilities arising from environmental problems, the science behind these liabilities, and the methods that lenders should implement to minimize financial risk - all without a single mathematical or scientific equation. The guide, divided into six main sections, is filled with must-have information focusing on environmental law and the lender's role in environmental liability o the science of soil and groundwater contamination o recommendations for lending institutions' environmental policies o methods for management of contamination liability o techniques for management of contaminated sites o and the lender's role in trusts and financial management. Become environmentally literate and improve your financial decision-making outcomes with *A Lender's Guide to Environmental Liability Management*. This extremely useful and practical book will save you worry, time, and money.

The Legal Environment of Business Apr 30 2021 THE LEGAL ENVIRONMENT OF BUSINESS provides a practical introduction to the structure and function of the legal system from the perspective of the professional nonlawyer. While noting our legal heritage, there is a strong emphasis on the nuts and bolts of basic legal rules that most impact business today. This popular text effectively adapts a traditional case focus for the unique needs of business students. Incorporating clear and concise coverage of a wide range of up-to-date topics, the twelfth edition of this trusted text introduces key points of law through business-specific examples and realistic scenarios that students can appreciate. The authors' readable style complements their extensive knowledge of domestic and international

business to make the text both an exceptional teaching tool and a favorite among instructors and students alike. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Text, Speech and Dialogue Oct 25 2020 The International Conference TSD 2005, the 8th event in the series on Text, Speech, and Dialogue, which originated in 1998, presented state-of-the-art technology and recent achievements in the field of natural language processing. It declared its intent to be an interdisciplinary forum, intertwining research in speech and language processing with its applications in everyday practice. We feel that the mixture of different approaches and applications offered a great opportunity to get acquainted with the current activities in all aspects of language communication and to witness the amazing vitality of researchers from developing countries too. The financial support of the ISCA (International Speech Communication Association) enabled the wide attendance of researchers from all active regions of the world. This year's conference was partially oriented towards multi-modal human-computer interaction (HCI), which can be seen as the most attractive topic of HCI at the present time. In this way, we are involved in a rich complex of communicative activity, facial expressions, hand gestures, direction of gaze, to name but the most obvious ones. The interpretation of each user utterance depends on the context, prosody, facial expressions (e. g. brows raised, brows and gaze both raised) and gestures. Hearers have to adapt to the speaker (e. g. maintaining the theme of the conversation, smiling etc.). Research into the interaction of these channels is however limited, often focusing on the interaction between a pair of channels. Six significant scientific results achieved in this area in the USA, Japan, Switzerland, Germany, The Netherlands, and the Czech Republic were presented by keynote speakers in special plenary sessions. Further, approx.
