Cutting Myself in Half Jan 10 2022 At age fourteen, Taylor LeBaron was nearly 300 pounds. He had difficulty just getting to the mailbox without becoming short of breath. A chubby kid from birth who was prone to obesity, Taylor allowed his weight to skyrocket through mindless 'whatever' eating and his sedentary techie lifestyle. But a membership to the Y, a keen imagination, and an indomitable spirit changed all that. Approaching proper eating and weight loss as he would a new video game, Taylor made fitness into a fun challenge with his creation of THE ULTIMATE FITNESS GAME (UFG)—a method of tracking calories, avoiding pitfalls, overcoming obstacles, and working out by following hard-and-fast rules that literally helped him shed half of his body weight in a matter of a year and a half. *Cutting Myself in Half* is Taylor's motivational strategy guide to THE ULTIMATE FITNESS GAME. Taylor shows kids who are currently where he was that weight loss and fitness are within reach . . . one workout, one calorie, one 'byte' at a time. *From Capitalistic to Humanistic Business* Mar 12 2022 Transforming Capitalism addresses the challenges to shareholder capitalism. It explores: fair play in the market place; challenges on systemic, organizational and individual levels; the need to refocus our economic system around community and cooperation; the current challenges and transform capitalism.

Our Own Worst Enemy as Protector of Ourselves May 22 2020 Much communication today argues a point. An argument, by definition, involves an attack and a counterattack not only using logic, but also incorporating non-logical feelings, attitudes, beliefs, and values. Much of the non-logical element in our argument taps the reservoir of unconscious understandings, feelings, expectations, and values that we have coded and stored in our unconscious minds in the form of stereotypes, schemas, and typifications. Our internal packets of stored values and beliefs may constitute our own worst enemy as they militate against creative thought and forward-looking change. At the same time, they may provide solace for our inner being and provide a framework for developing persuasive campaigns to further our interests. The book takes us through the persuasive process, particularly as it is used in terrorist persuasive settings and as it has been used in some of the major propaganda battles of the twentieth and twenty-first centuries. *Birthing Eternity* Jun 22 2020 Are we living in what the Bible calls the Last Days? It feels like it, but how can you know for certain? What if everything you have been taught about the End Times is wrong? What if the doctrines of well-meaning theologians who lived in a day before planes, trains, and automobiles, before phones, TVs, and satellite communications, are as helpful as the understanding of an elephant provided by the four proverbial blind men? Based on their limited knowledge, gleaned from what their hands have touched, they proclaim an elephant is like a rope, a snake, a tree, a fan. With the clarity of sight, we know none of these accurately describes an elephant! *Birthing Eternity* makes a compelling case to take off your theological blindfolds

and examine the elephant standing before you. By tracing the correlation between documented history and the biblical prophecy, *Birthing Eternity* will give you answers that are both unexpected and profound. Find out how God has fulfilled His Word in astounding detail and gain critical insight about current events that are on everyone's mind in this unsettled and challenging time. *Birthing Eternity* makes the Last Days easy to understand. It is proof that the message of End Times Scripture does not require top-secret information, prophetic visions, or a degree in theology. It is simply a matter of connecting the dots between what is plainly stated in Scripture and human events. More than that, you will find assurance that the unfolding of Last Days events isn't something to be feared, but rather an exciting adventure. No matter what, there is hope for a bright future—including eternity.

I Unlocked My Subconscious Your Turn Aug 05 2021 The author had an accident five months ago. The author accidentally unlocked his subconscious. The author lost his sense of time and emotions in the process. The author suggests anyone who reads this book will unlock their subconscious. The author suggests that is not a prediction. That author suggests that is a warning. This is the author's third attempt to communicate since the accident. Do not attempt to contact me I am too busy attempting to contact you. I cannot help you read this book. That is just the way it is.

Artificial Neural Networks and Machine Learning - ICANN 2021 Feb 28 2021 The proceedings set LNCS 12891, LNCS 12892, LNCS 12893, LNCS 12894 and LNCS 12895 constitute the proceedings of the 30th International Conference on Artificial Neural Networks, ICANN 2021, held in Bratislava, Slovakia, in September 2021.* The total of 265 full papers presented in these proceedings was carefully reviewed and selected from 496 submissions, and organized in 5 volumes. In this volume, the papers focus on topics such as adversarial machine learning, anomaly detection, attention and transformers, audio and multimodal applications, bioinformatics and biosignal analysis, capsule networks and cognitive models. *The conference was held online 2021 due to the COVID-19 pandemic.

Electronic Commerce Apr 13 2022 Throughout the book, theoretical foundations necessary for understanding Electronic Commerce (EC) are presented, ranging from consumer behavior to the economic theory of competition. Furthermore, this book presents the most current topics relating to EC as described by a diversified team of experts in a variety of fields, including a senior vice president of an e-commerce-related company. The authors provide website resources, numerous exercises, and extensive references to supplement the theoretical presentations. At the end of each chapter, a list of online resources with links to the websites is also provided. Additionally, extensive, vivid examples from large corporations, small businesses from different industries, and services, governments, and nonprofit agencies from all over the world make concepts come alive in Electronic Commerce. These examples, which were collected by both academicians and practitioners, show the reader the capabilities of EC, its cost and justification, and the innovative ways corporations are using EC in their operations. In this edition (previous editions published by Pearson/Prentice Hall), the authors bring forth the latest trends in e-commerce, including social businesses, social networking, social collaboration, innovations, and mobility.

The Founding Foodies Jul 04 2021 Who Were the Original Foodies? Beyond their legacy as revolutionaries and politicians, the Founding Fathers of America were first and foremost a group of farmers. Passionate about the land and the bounty it produced, their love of food and the art of eating created what would ultimately become America's diverse food culture. Like many of today's foodies, the Founding Fathers were ardent supporters of sustainable farming and ranching, exotic imported foods, brewing, distilling, and wine appreciation. Washington, Jefferson, and Franklin penned original recipes, encouraged local production of beer and wine, and shared their delight in food with friends and fellow politicians. In *The Founding Foodies*, food writer Dave DeWitt entertainingly describes how some of America's most famous colonial leaders not only established America's political destiny, but also revolutionized the very foods we eat. Features over thirty authentic colonial recipes, including: Thomas Jefferson's ice cream A recipe for beer by George Washington Martha Washington's fruitcake Medford rum punch Terrapin soup

The Psychology of Love [4 volumes] Dec 17 2019 From arranged marriages to online dating, this four-volume work presents everything from personal accounts to empirical evidence to document what creates love in our culture as well as around the world. • Showcases individual accounts regarding the perennial question of "what is love?" • Highlights cultural similarities and differences • Provides up-to-date empirical research • Supplies extensive bibliographic materials and a list of organizations regarding relationships, including abusive relationships

The New Community Rules Nov 20 2022 This book offers crucial advice and strategies for marketing products and services on today's social web, with case studies on what really works and what doesn't. **Mathematics and Sports** Dec 09 2021 An accessible compendium of essays on the broad theme of mathematics and sports.

Love Nation and People Oct 27 2020

The Little Penguin Handbook Oct 07 2021 *The Little Penguin Handbook: Australasian edition 3e* is a handy full-colour reference guide that gives students just what they need to know about the writing and research processes, while providing coverage of documentation and grammar. It offers student-friendly features and includes coverage of the most current Harvard, APA, MLA and CMS citation, documentation and style guidelines. Associate Lecturer and Professional Writing Consultant Angela Shetler, from University of Sydney, has reviewed and further adapted the book specifically for the Australasian context. Angela's expertise has ensured the handbook reflects the needs of Australasian students.

Machine Learning and Knowledge Discovery in Databases Feb 23 2023 This three-volume set LNAI 8724, 8725 and 8726 constitutes the refereed proceedings of the European Conference on Machine Learning and Knowledge Discovery in Databases: ECML PKDD 2014, held in Nancy, France, in September 2014. The 115 revised research papers presented together with 13 demo track papers, 10 nectar track papers, 8 PhD track papers, and 9 invited talks were carefully reviewed and selected from 550 submissions. The papers cover the latest high-quality interdisciplinary research results in all areas related to machine learning and knowledge discovery in databases.

Advances in Information Retrieval Jul 16 2022 This book constitutes the refereed proceedings of the 40th European Conference on IR Research, ECIR 2018, held in Grenoble, France, in March 2018. The 39 full papers and 39 short papers presented together with 6 demos, 5 workshops and 3 tutorials, were carefully reviewed and selected from 303 submissions. Accepted papers cover the state of the art in information retrieval including topics such as: topic modeling, deep learning, evaluation, user behavior, document representation, recommendation systems, retrieval methods, learning and classification, and micro-blogs.

Role of Language and Corporate Communication in Greater China Nov 15 2019 This book features not only the latest trends but also academic and industry practitioner stakeholders' perspectives on language and functional role issues facing the rapidly developing corporate communication (CC) profession in the Greater China region. The book also explores the implications for Western societies that cross-culturally engage with Chinese partners in CC practices. The book's chapters are oriented on five main themes, namely: Development of the CC Profession, Bilingual Practices in Corporate Communication, Corporate Social Responsibility, Employee Communications, and Media Discourse & Persuasive Communication. The first two cluster themes feature a review of the PR/CC profession's evolutionary path to its current status as a more distinct and diversified CC profession emphasizing the role of language and particularly the bilingualism phenomenon, whereas the other cluster themes, which adopt the perspectives of academics and those of CC practitioners, span from cross-cultural, profession-wide and bilingual communication issues to applications of heuristic knowledge within industry-specific workplace contexts.

Dates Oct 15 2019 Of the many varieties of date palms, the species *Phoenix dactylifera* Linn. is cultivated extensively and traded and consumed worldwide. *Dates: Production, Processing, Food, and Medicinal Values* draws from a broad spectrum of contributors to present a comprehensive survey of this particular species. The book explores a range of essential facets of what many consider to be a wonder plant—from its cultivation to its potential for medicinal purposes. Divided into four parts, the book begins by examining cultural practices and their implications for date quality. The contributors discuss tissue culture studies, farm water management, mechanization approaches in pollination and harvesting operations, and marketing aspects. The second section focuses on postharvest operations such as drying and explores alternatives for methyl bromide fumigation and value-added products. It also reviews biofuel production from by-products and discusses the issue of waste generated from industry. The third part of the book highlights the physical, chemical, and structural characteristics of dates. It reviews fermentative products that use dates as substrate, discusses the fruits as a substitute for added sugar in food, and explores date palm feeding to livestock. The final section discusses the possibilities for nutritional and medicinal use and reviews the use of dates in indigenous medicine. Exploring essential properties and agricultural implications, this volume is a reliable resource for understanding the many aspects of the *Phoenix dactylifera* Linn.

Helping Students Motivate Themselves Feb 11 2022 Give your students the tools they need to motivate themselves with tips from award-winning educator Larry Ferlazzo. A comprehensive outline of

common classroom challenges, this book presents immediately applicable steps and lesson plans for all teachers looking to help students motivate themselves. With coverage of brain-based learning, classroom management, and using technology, these strategies can be easily incorporated into any curriculum. Learn to implement solutions to the following challenges: How do you motivate students? How do you help students see the importance of personal responsibility? How do you deal with a student who is being disruptive in class? How do you regain control of an out-of-control class? And more! Blogger and educator Larry Ferlazzo has worked to combine literacy development with short and rigorous classroom lessons on topics such as self-control, personal responsibility, brain growth, and perseverance. He uses many "on-the-spot" interventions designed to engage students and connect with their personal interests. Use these practical, research-based ideas to ensure all of your students are intrinsically motivated to learn!

Tricks for Good Grades (Second Edition) Apr 20 2020 "Tricks for Good Grades" provides students with methods and strategies to excel in school and get better grades. It shows how to zip through homework, do better in tests, and get along with teachers, among other topics. The book is aimed at middle school and high school students and is based on lessons from the School for Champions educational website (www.school-for-champions.com).

We the Who? Jan 18 2020 America was formed based on a vision of democracy where supreme power is supposed to be vested in the people. In *We the Who?* author Brett H. Lewis asks if Americans are losing sight of who "we the people" are and, more importantly, who we need to be in order to regain our collective identity and ensure America's continued growth and greatness. *We the Who?* presents a collection of essays and opinions that probe into the nuts and bolts of current issues facing America today. Lewis tackles the subjects of classism, racism, justice, politics, the military, and the economy. Through these discussions, he encourages the American populace to be alert and aware to ensure that government of the people, by the people, and for the people continues to be at the forefront of today's America. Drawing from history, logic, social inclinations, religious beliefs, and personal experiences, *We the Who?* seeks to inform the public and to encourage them to ask questions, express opinions, and hold elected leaders accountable. It communicates the necessity to be informed in order to make quality decisions about our lives.

Information Retrieval Technology Dec 21 2022 This book constitutes the refereed proceedings of the 8th Information Retrieval Societies Conference, AIRS 2012, held in Tianjin, China, in December 2012. The 22 full papers and 26 poster presentations included in this volume were carefully reviewed and selected from 77 submissions. They are organized in topical sections named: IR models; evaluation and user studies; NLP for IR; machine learning and data mining; social media; IR applications; multimedia IT and indexing; collaborative and federated search; and the poster session.

Social Information Seeking Aug 17 2022 This volume summarizes the author's work on social information seeking (SIS), and at the same time serves as an introduction to the topic. Sometimes also referred to as social search or social information retrieval, this is a relatively new area of study concerned with the seeking and acquiring of information from social spaces on the Internet. It involves studying situations, motivations, and methods involved in seeking and sharing of information in participatory online social sites, such as Yahoo! Answers, WikiAnswers, and Twitter, as well as building systems for supporting such activities. The first part of the book introduces various foundational concepts, including information seeking, social media, and social networking. As such it provides the necessary basis to then discuss how those aspects could intertwine in different ways to create methods, tools, and opportunities for supporting and leveraging SIS. Next, Part II discusses the social dimension and primarily examines the online question-answering activity. Part III then emphasizes the collaborative aspect of information seeking, and examines what happens when social and collaborative dimensions are considered together. Lastly, Part IV provides a synthesis by consolidating methods, systems, and evaluation techniques related to social and collaborative information seeking. The book is completed by a list of challenges and opportunities for both theoretical and practical SIS work. The book is intended mainly for researchers and graduate students looking for an introduction to this new field, as well as developers and system designers interested in building interactive information retrieval systems or social/community-driven interfaces.

The Global Mobility Profession Aug 25 2020 Recent and current

literature on the topic Global Mobility has shown that it is evolving. This comprises legal requirements, cultural changes and technical developments. The interaction and inter-dependency of all these factors increase complexity which requires an adjusted handling by Human Resources and Global Mobility departments. In his book "The Global Mobility Profession", Daniel Zinner describes in a comprehensive way why there is a requirement to train a first generation of true Global Mobility Professionals and how to achieve it. Furthermore, Daniel Zinner takes a strategic outlook in his book on the direction Global Mobility shall develop into. He comes to the conclusion that given the immaturity of this field, a standardization of terms and terminology is the logical next step to provide transparency and comparability in the area of Global Mobility. This will help to further position Global Mobility as a strategic and efficient function in organizations.

What Would Our Founding Fathers Say? Nov 27 2020 Psychologist, H. John Lyke, and author of *What Would Our Founding Fathers Say?*, asks the question: At the end of this century, will the United States still be a world leader or will we continue to be an inferior caricature of what we once were or, even worse, will we have become another fallen empire? Put another way, will the dreams and promises of Americans for their country continue to become unattainable? This book offers political straight talk about today's issues between the right and the left by looking through the eyes of the patriots who wrote the plans for our fledgling nation. Are we following that plan? What was between the lines that our representatives seem to have forgotten? What was expected of the citizenry that the rest of us are neglecting to do? Lyke provides a clear and impassioned plea to get back to basics. And he shows us, in this treatise of some substance, why the Declaration of Independence, Constitution, and Bill of Rights were written, and why those superb documents continue to stand the test of time. Lyke believes he has provided the bipartisan political formula necessary for his children and grandchildren, as well as his fellow Americans living in this country, to be able to live their lives with dignity, respect and a sense of purpose and pride of accomplishment - in a way not possible in the world of politics today.

Introduction to Electronic Commerce and Social Commerce May 14 2022 This is a complete update of the best-selling undergraduate textbook on Electronic Commerce (EC). New to this 4th Edition is the addition of material on Social Commerce (two chapters); a new tutorial on the major EC support technologies, including cloud computing, RFID, and EDI; ten new learning outcomes; and video exercises added to most chapters. Wherever appropriate, material on Social Commerce has been added to existing chapters. Supplementary material includes an Instructor's Manual; Test Bank questions for each chapter; Powerpoint Lecture Notes; and a Companion Website that includes EC support technologies as well as online files. The book is organized into 12 chapters grouped into 6 parts. Part 1 is an Introduction to E-Commerce and E-Marketplaces. Part 2 focuses on EC Applications, while Part 3 looks at Emerging EC Platforms, with two new chapters on Social Commerce and Enterprise Social Networks. Part 4 examines EC Support Services, and Part 5 looks at E-Commerce Strategy and Implementation. Part 6 is a collection of online tutorials on Launching Online Businesses and EC Projects, with tutorials focusing on e-CRM; EC Technology; Business Intelligence, including Data-, Text-, and Web Mining; E-Collaboration; and Competition in Cyberspace. the following="" tutorials="" are="" not="" related="" to="" any="" specific="" chapter="" they="" cover="" the="" essentials="" ec="" technologies="" and="" provide="" a="" guide="" relevant="" resources.="" p

Searching 2.0 Jul 24 2020 Topics covered include how to tackle a search question; how to organise electronic resources; the major search engines; searching for content online; local area searching; internet archives; creating your own metasearches; desktop search tools; & major search toolbars & plug -ins.

THE CHURCH - IS NOT WHAT YOU THINK Nov 08 2021

The Outreach of Digital Libraries: A Globalized Resource Network Jan 22 2023 This book constitutes the refereed proceedings of the 14th International Conference on Asia-Pacific Digital Libraries, ICADL 2012, held in Taipei, China, in November 2012. The 27 revised full papers, 17 revised short papers, and 13 poster papers were carefully reviewed and selected from 93 submissions. The papers are organized in topical sections on cultural heritage preservation, retrieval and browsing in digital libraries, bibliometrics, metadata and cataloguing, mobile and cloud computing, human factors in digital library, preservation systems and algorithms, social media, digital library algorithms and systems, recommendation applications and social networks.

Resilience Feb 17 2020 Resilience has become a central concept in government policy understandings over the last decade. In our complex, global and interconnected world, resilience appears to be the policy 'buzzword' of choice, alleged to be the solution to a wide and ever-growing range of policy issues. This book analyses the key aspects of resilience-thinking and highlights how resilience impacts upon traditional conceptions of governance. This concise and accessible book investigates how resilience-thinking adds new insights into how politics (both domestically and internationally) is understood to work and how problems are perceived and addressed; from educational training in schools to global ethics and from responses to shock events and natural disasters to long-term international policies to promote peace and development. This book also raises searching questions about how resilience-thinking influences the types of knowledge and understanding we value and challenges traditional conceptions of social and political processes. It sets forward a new and clear conceptualisation of resilience, of use to students, academics and policy-makers, emphasising the links between the rise of resilience and awareness of the complex nature of problems and policy-making.

The Secret World of Jon and Kate Apr 01 2021 "The crazy world of Jon and Kate Gosselin like you've never seen it before! Veteran journalist Al Walentis reported on the story for Us Weekly and he delivers a no-holds-barred account of the madness of tabloid journalism, taking you behind the scenes to show what it was really like at ground zero when international paparazzi descended on a peaceful Pennsylvania community to cover the unlikeliest celebrity story in history. Polly Kahl also offers a fascinating psychological profile of Jon and Kate and tells what the dysfunctional couple needs to accomplish to return to normalcy."--Page 4 of cover.

Engineering Earth Jun 03 2021 This is the first book to examine the actual impact of physical and social engineering projects in more than fifty countries from a multidisciplinary perspective. The book brings together an international team of nearly two hundred authors from over two dozen different countries and more than a dozen different social, environmental, and engineering sciences. Together they document and illustrate with case studies, maps and photographs the scale and impacts of many megaprojects and the importance of studying these projects in historical, contemporary and postmodern perspectives. This pioneering book will stimulate interest in examining a variety of both social and physical engineering projects at local, regional, and global scales and from disciplinary and trans-disciplinary perspectives.

What if? Sep 25 2020 Every month, millions of people enter the term 'what if' on Google and other online search engines. What do they expect to find? The answer is something like the information you'll find in this collection of trivia, witticisms, and plain old useful information. Author Knut Olsen addresses questions like these: What if Adam had been gay? What if nobody drank alcohol? What if you could call God? A: The phone operator would probably charge you a fortune. What if you put all the condoms in the world on top of each other? What if you fired a gun on a train moving as fast as a bullet? What if we knew how much Governments around the world waste of taxpayers' money? You'll discover the answers to these and more than one thousand other "what if" questions on a wide range of topics, including family, religion, music, sex, politics and much more. As you read the questions and answers, you'll think, laugh, and often be surprised. We are surrounded by what-ifs, and some of them are so serious that you might not be prepared to consider them. While some are unthinkable or unrealistic, many are fun. Either way, sit back and enjoy the ride!

Spp Trik Cepat Mencari Apapun Di Internet Jun 15 2022

Trik Cepat Mencari Apa pun di Internet Jan 30 2021 Anda dapat menemukan apapun di internet, baik itu berita, artikel, informasi, image, musik, video, atau data lainnya seperti isi buku, hasil penelitian, fakta sejarah, biografi, dan sebagainya. Dengan membaca buku ini, Anda akan mendapat tuntutan cepat dan trik-trik praktis untuk menemukan apapun dengan segera di internet.

Loving the Tasmanian Devil Mar 20 2020 Having a partner with ASD can feel like a roller-coaster ride for the neurotypical spouse -- In sharing the ups, the downs, the growth, and the regression in their particular journey, the author hopes that others on a similar path may find humor, recognition, and ways to view the unique life of loving an Aspergian from a new angle.

Multi-disciplinary Trends in Artificial Intelligence Oct 19 2022 This book constitutes the refereed conference proceedings of the 12th International Conference on Multi-disciplinary Trends in Artificial Intelligence, MIWAI 2018, held in Hanoi, Vietnam, in November 2018.

The 16 full papers presented together with 9 short papers were carefully reviewed and selected from 65 submissions. They are organized in the following topical sections: control, planning and scheduling, pattern recognition, knowledge mining, software applications, strategy games and others.

A Table for Saint Joseph May 02 2021 The celebration of Saint Joseph's Day dates back to the Middle Ages, when a severe famine devastated Sicily. The poor farmers prayed to God and to Saint Joseph, their patron saint, for rain. When the rains came, the crops flourished. The farmers rejoiced and gave thanks with a feast. They fed everyone, "the greatest and the least," in thanksgiving. Tavola di San Giuseppe—Table of Saint Joseph—lives on today throughout the world in homes, churches, and organizations. Viva San Giuseppe!

Building Web Reputation Systems Sep 06 2021 What do Amazon's product reviews, eBay's feedback score system, Slashdot's Karma System, and Xbox Live's Achievements have in common? They're all examples of successful reputation systems that enable consumer websites to manage and present user contributions most effectively. This book shows you how to design and develop reputation systems for your own sites or web applications, written by experts who have designed web communities for Yahoo! and other prominent sites. Building Web Reputation Systems helps you ask the hard questions about these underlying mechanisms, and why they're critical for any organization that draws from or depends on user-generated content. It's a must-have for system architects, product managers, community support staff, and UI designers. Scale your reputation system to handle an overwhelming inflow of user contributions Determine the quality of contributions, and learn why some are more useful than others Become familiar with different models that encourage first-class contributions Discover tricks of moderation and how to stamp out the worst contributions quickly and efficiently Engage contributors and reward them in a way that gets them to return Examine a case study based on actual reputation deployments at industry-leading social sites, including Yahoo!, Flickr, and eBay

Integrated Uncertainty in Knowledge Modelling and Decision

Making Sep 18 2022 This book constitutes the refereed proceedings of the 6th International Symposium on Integrated Uncertainty in Knowledge Modelling and Decision Making, IUKM 2018, held in Hanoi, Vietnam, in March 2018. The 39 revised full papers presented in this book were carefully reviewed and selected from 76 initial submissions. The papers are organized in topical sections on uncertainty management and decision support; clustering and classification; machine learning applications; statistical methods; and econometric applications.
